CustomerCall

IQ Pagers

Benefit immediately from:

> **Customer-Friendly Paging**
Turns tables faster, creates a more peaceful atmosphere, and increases sales.

> **Anti-Theft Feature**
Minimises pager loss with an out-of-range alert.

> **User-Replaceable Batteries**
Battery replacement is easy and convenient, keeping your cost of ownership to a minimum.

> **Smart Charging**
Dramatically extends the life of pager batteries without overcharging them.

> **Unique System ID**
Prevents nearby paging systems from interfering with communication in your restaurant.

> **Most Reliable Pagers**
Made from high-quality parts for the best performance in the industry.

Reduce Noise
Improve Guest Flow
Increase Profits

Guest paging systems increase your profits by turning tables more quickly and improving your guests' experience. Give waiting guests a CustomerCall IQ pager so they are free to visit the bar or nearby areas for a more relaxing wait.

Notify guests when their table is ready with a flash, bleep or vibration. No more noisy overhead systems or spending time searching for waiting guests!

CustomerCall creates a physical tie to the restaurant, industry proven to result in fewer walk-aways. Customers will be seated more quickly, receiving a smoother, more customer-friendly service.

Leaders in On-Site Wireless Communication Software/Hardware – Hospitality, Healthcare, Retail, Education, Leisure and Industrial

Additional pager options available

Paddle pager

Numeric pager vibrates and flashes when paged. Available with customised branded paddle.

EuroCoaster

Digital coaster pager, which flashes, beeps and vibrates.

CST Alphanumeric pager

Numeric 1 line or 12 character text message pager. Also available with a paddle.

Transceiver IQ Base Unit

This device can be used with all UHF CST pagers. It has built-in seating management when used with our handheld TableScout® table status device. It has a large, menu driven display that shows open and seated tables along with estimated waiting time.
