- ▼ Scroll through the calendar to see previous and coming months

protel Room Type Plan

- ▼ Use the active room type plan to edit reservations for groups across different types and time periods
- ▼ Simply drag and click to reserve your guests' preferred room types
- ▼ Track your occupancy situation
- ▼ Keep an eye on allocations, options, waiting lists, percentage occupancy, et cetera
- ▼ Enter and edit events

The protel Room Plan: all reservations and rooms at a glance

Check availability and occupancy in protel Room Type Plan

The protel Guest Profile is the ideal foundation for effective marketing

protel Guest Profile

- Use the protel guest profile to record your guest data
- Store address, reservation and revenue details
- Keep track of guests' personal preferences

protel Navigator

- Access to all front office functions
- Pull it up at any time from a guest's name in any list, in the room plan or in one of many dialogs
- Enter and edit a guest's personal data, reservation and billing details
- Enter/edit a guest's preferences and special requests
- Edit group reservations

protel Sales Enquiry

- Full-featured support wizard to support the reservation process
- Use the sales enquiry dialogue to offer optimum rates to your guests
- Activate the wizard by pressing any key
- Check the individual daily rates for each day of the inquired period
- Work with daily BAR (Best available rate)

protel Reporting

- Use protel's integrated reporting function to get more insights into your business
- Track key performance indicators on reservations, revenues, occupancy and average rates
- Use complex analytics such as period-specific analyses of market segments
- Export your data into Microsoft Excel
- Use business intelligence functions to translate actionable information into informed action

protel Rate Management

- Assign rate codes with a fine degree of granularity
- Use dynamic rate management to automatically optimize your average room rate
- Specify a particular pricing strategy for individual days, weeks or even an entire year
- Activate and deactivate rates automatically depending on the strategy
- Identify your hotel's current and expected occupancy, broken down by room category or individual room

protel Navigator: the main switchboard to all front office functions

The protel Sales Enquiry Wizard helps staff to always offer the optimum rates

Rate Availability: assign rate codes with a fine degree of granularity
